CRAFT WORK

Founded in 2022 by Lilya Turki and Antonio Fazio, Archyvio presents a unique outlook on art and craftsmanship. This Swiss-based brand offers a thoughtfully curated assortment of objects gathered from diverse markets and auctions, as well as hidden gems discovered during the couple's travels. Emphasising beauty and form, Archyvio defies the usual gallery conventions, providing an inclusive and personalised shopping experience that allows individuals to appreciate and acquire exquisite crafts.

SHOWSTOPPER

The Maverick sofa by Mindthegap features the Cortina print inspired by the Dolomiti Superski region in the Italian Alps. Priced at £4,800, the sofa is beautifully enhanced by brass-finished metal legs and contrasting stitch details. The linen upholstery undergoes a stonewashing process for a vintage effect and enhanced softness. Expertly made in Romania, this maximalist masterpiece also pays homage to Transylvania's rich craft heritage and the skilled artisans behind it.

SHINE ON

Beata Heuman presents the Crinkle light, £480, a versatile piece that celebrates the beauty of the Edison bulb while providing an alternative to conventional spotlights. Each light is made entirely in the UK and cast in solid aluminium, with the uneven, ridged surface beautifully reflecting and catching light. Make your choice from Poppy (shown), Saffron, Salt or the unfinished Raw to infuse your room with a touch of Beata's signature style.

TWO'S COMPANY

DimoreStudio and Pierre Frey have unveiled five exquisite printed designs for carpets and rugs, priced from €285. This captivating collection seamlessly blends floral, geometric and abstract patterns, evoking the vibrant essence of 70s Italy, with each piece showcasing DimoreStudio's distinct theatrical touch. →
